(Tentative Promotional Points table above)

Promotional Points are assigned to riders based on overall finishes. The points will carry over year to year.

P – 1 – Promotional points are assigned to competing racers based on overall finish to advance them from C to B and B to A. Once a racer goes over the total points needed to advance, they must race in the higher level at the next MMX event unless they are eligible to freeze (see P-8). A racer is considered a "B rider" once they point out of the C class and then race in the B class or gain permission from MMX to advance and then race in the B class. A racer is considered an "A rider" once they point out of the B class and then race in the A class or gain permission from MMX to advance and then race in the A class.

Once a rider has ridden in a higher class, he/she cannot go back. (See R4) Points reset to zero once a rider moves up a classification level

P – 2 – Promotional Points for all 250, 450, and Open Classes

C to B = 40 points total in all classes combined

B to A = 100 points total in all classes combined

P – 3 – 1st race is Moto 1 and 2nd race is Moto 2 - Both motos are combined for Overall Finish. Championship points are awarded for both Moto 1 and Moto 2 O/A score.

P - 4 - Freezing Points - Racers can freeze their points after 60% of the way through the series. What this means is they will be eligible to remain in the championship for that class but forced to move up a level the following season.

B Championship

P – 5 – Drops – There are no drops factored in for the series overall.

P – 6 – Ties - Series Championship point ties will be broken as follows: Rider with most 1st's, then 2nd's if needed, 3rd's if needed - if still tie - last moto score.

P – 7 – Championship Trophy are for top 5 riders who've completed the 75% requirement
